The chart below graph shows the average percent for the cohort answering the questions in the particular strands correctly. It should be noted that here each area does not hold equal weighting.

Cohort Percentage Correct in each Assessment Focus

### Correct against Incorrect/Unanswered for Cohort

This height of the bar shows the weighting of each area and the average number correct and incorrect answers.  
A large area of red would indicate an area of priority.

## Specific Questions Sorted by Strand Correct against Incorrect/Unanswered

This graph shows the specific questions correct and incorrect (or unanswered) for the cohort, sorted by strand. More red shows a greater need for improvement.  
Width of the strand indicates weighting.

### Specific Questions Sorted by Correct to Incorrect Correct against Incorrect/Unanswered

■ Correct ■ Incorrect or unanswered

This graph shows the specific questions correct and incorrect (or unanswered) for the cohort, sorted by number correct. More red shows a greater need for improvement.

### Specific Questions Sorted by Topic Correct against Incorrect/Unanswered

This graph shows the specific questions correct and incorrect (or unanswered) for the cohort, sorted by approximate level of the question. More red shows a greater need for improvement.
