Instructions

You **may** use a calculator to answer any questions in this test.

Work as quickly and as carefully as you can.

You have **45 minutes** for this test.

If you cannot do one of the questions, **go on to the next one**.

You can come back to it later, if you have time.

If you finish before the end, **go back and check your work**.

Follow the instructions for each question carefully.

This shows where you need to put the answer.

If you need to do working out, you can use any space on a page.

Some questions have an answer box like this:

A diagram showing a large rectangular area for working out. On the left side of this area is a smaller, rounded rectangular box containing the text "Show your method". A pencil icon is positioned above the "Show your method" box. In the bottom right corner of the large rectangular area, there is a smaller, empty rectangular box for the final answer.

For these questions you may get a mark for showing your method.
