Choose which are the best numbers to add first (look for numbers that add to make a ten, eg: 14+6 = 20), then complete the calculation:

1) 14 + 6 + 8   7) 22 + 3 + 8 + 7
2) 17 + 8 + 3   8) 4 + 15 + 5 + 16
3) 14 + 23 + 7   9) 5.5 + 12 + 8
4) 18 + 14 + 2   10) 17 + 13 + 4.8
5) 38 + 7 + 12   11) 16 + 8.2 + 14
6) 42 + 13 + 17   12) 3.7 + 5 + 4.3
