## Phonics screening check

### 2024 scoring guidance

#### Pronunciation of real words and pseudo-words

Some of the graphemes used in the check represent a number of different phonemes. When decoding a real word in the check, the child has to select the correct phoneme for the word, for example the 'ow' in 'blow' should not be pronounced as the 'ow' in 'cow'.

The tables on the next page provide guidance on some examples of common pronunciations of the pseudo-words in the check. When decoding a pseudo-word, all plausible alternative and regional pronunciations are acceptable.
