Instructions

You **must not** use a calculator to answer any questions in this test.

Questions and answers

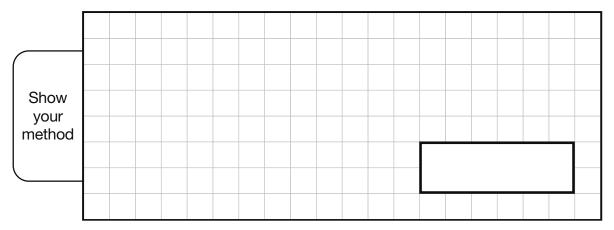

You have 40 minutes to complete this test.

Follow the instructions for each question.

Work as quickly and as carefully as you can.

If you need to do working out, you can use the space around the question. Do not write over any barcodes.

Some questions have a method box like this:

For these questions, you may get a mark for showing your method.

If you cannot do a question, **go on to the next one**. You can come back to it later, if you have time.

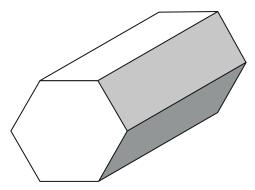

If you finish before the end, go back and check your work.

Marks

The number under each line at the side of the page tells you the number of marks available for each question.
