YEAR 5 TEST 5A LEVELS

CALCULATOR **NOT** ALLOWED

Total marks

Instructions

	Work as quickly and as carefully as you can.					
	You have 45 minutes for this test.					
	If you cannot do one of the questions, go on to the next one.					
	You can come back to it later, if you have time.					
	If you finish before the end, go back and check your work.					
Follow the instructions for each question carefully.						
	This shows where you need to put the answer.					
	If you need to do working out, you can use any space on a page.					
	Some questions have an answer box like this:					
	DW D					
าล	orking. _\ay get _\					
18	ark					

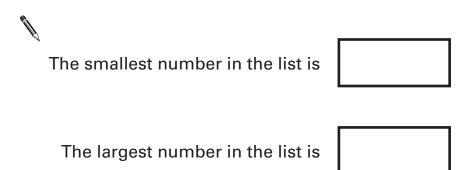

1 Calculate **546 + 423**

	1 mark

Here is a list of numbers.

1140 1400 1440 1040 1410

Complete these sentences.

3

Emma buys 5 bunches of flowers.

Each bunch of flowers costs £1.20

How much does Emma pay altogether?

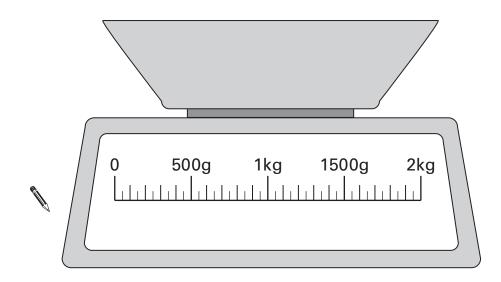

1 mark

4

Luke needs 200 grams of flour.

Draw an arrow (†) on the scale to show 200g.

There are three classes at Park School.

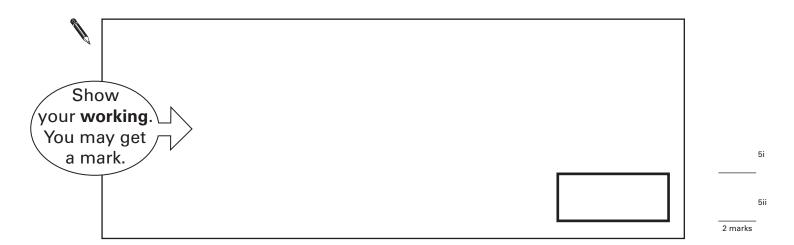

There are 78 children altogether.

Look at the table.

Children at Park School

Class	Number of children		
Class 1	23		
Class 2	30		
Class 3	?		

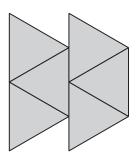

Calculate how many children are in Class 3

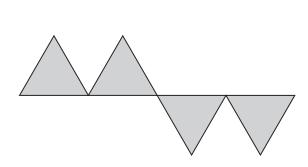

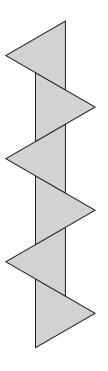

Here are some patterns made with identical triangles.

Tick (✓) the **two** patterns that have a line of symmetry.

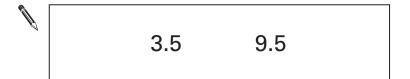

8 Here are some pairs of numbers.

For each pair, circle the number that is **nearer to 5**

One has been done for you.

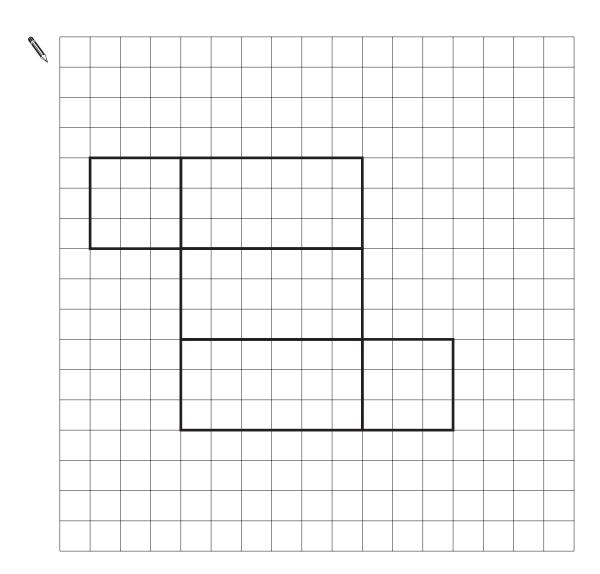

2.5 5.5

4.5 6.5

Here is part of a net for a cuboid.

Draw in the missing face to complete the net.

Use a ruler.

Circle all the numbers that are one more than a multiple of 4

11

17

25

34

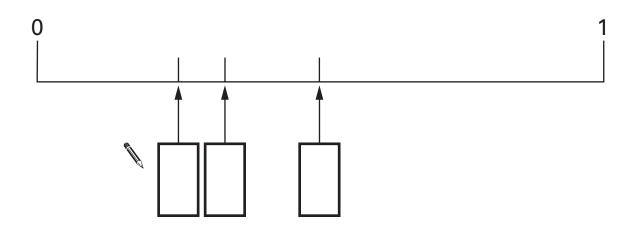

40

49

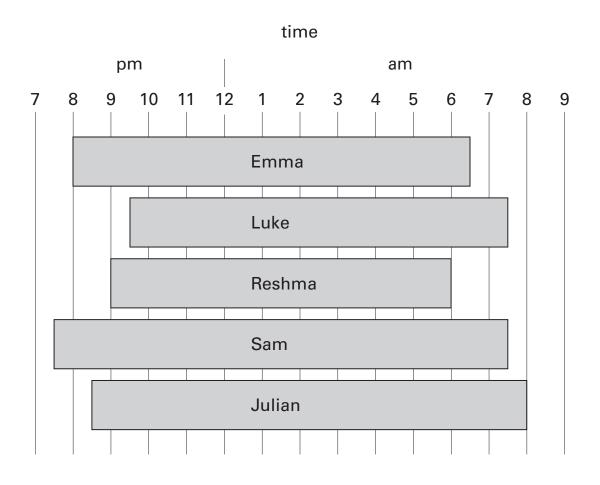

1 mark

Here are three fractions.

Write the fractions in the correct boxes on the number line.

This chart shows when some children were asleep one night.

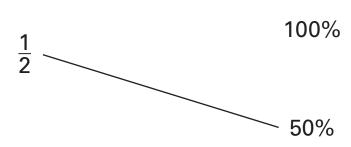

12 12 1 mark

How many children woke up after 7am?

One has been done for you.

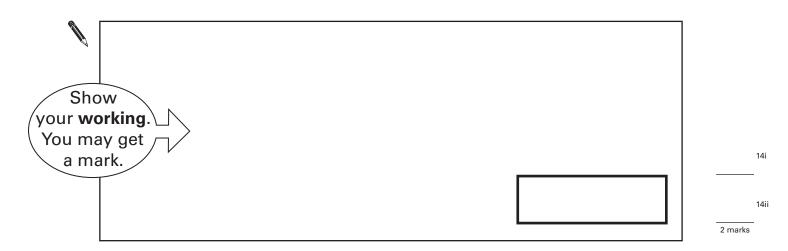

14

Reshma buys 4 packets of balloons.

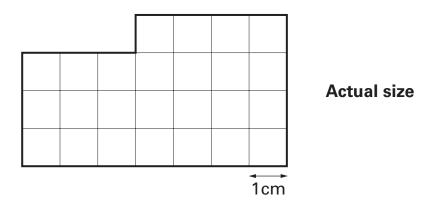

She pays with a £5 note and gets 40p change.

How much does one packet of balloons cost?

Here is a shape divided into centimetre squares.

What is the **perimeter** of the shape?

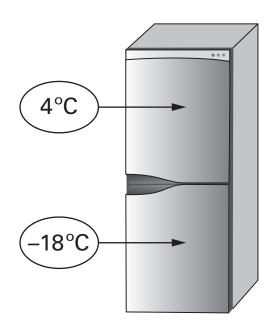

17 This is a fridge-freezer.

The temperature in the fridge is 4°C.

The temperature in the freezer is –18°C.

What is the difference in temperature between the fridge and the freezer?

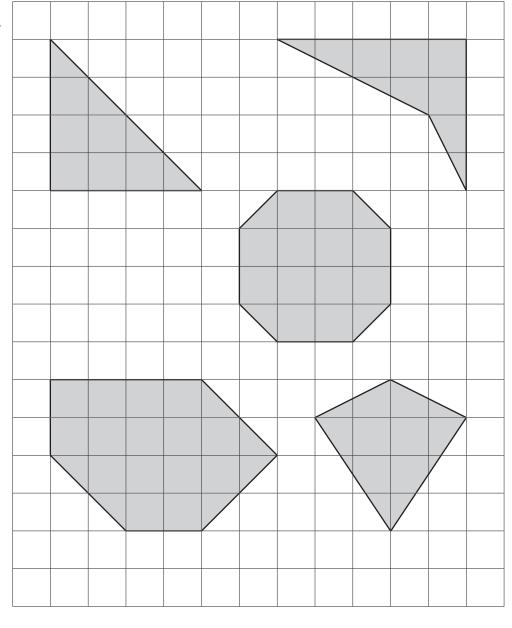

Here are some shapes on a square grid.

One of the shapes has two right angles.

Tick (\checkmark) the shape.

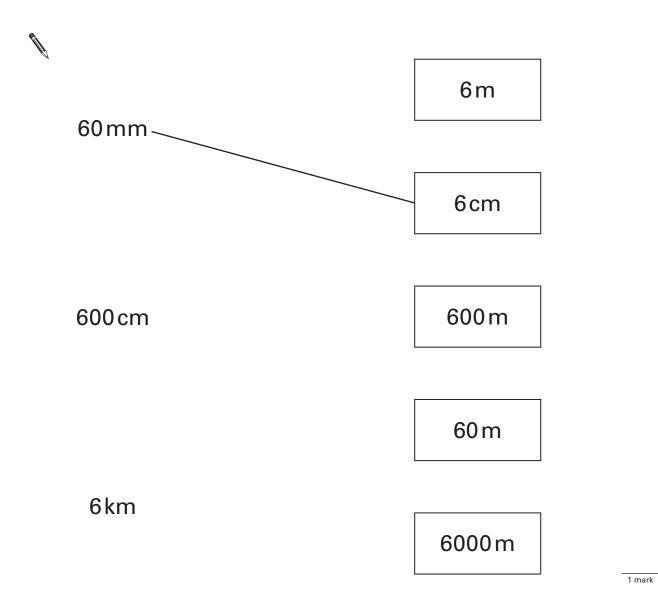

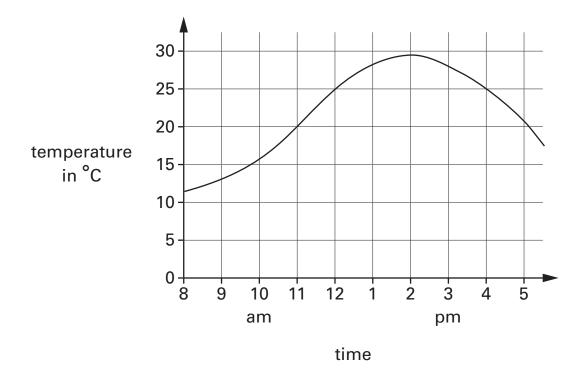

18

Match each length to the correct box on the right.

One has been done for you.

This graph shows the temperature on a day in July.

What is the temperature at 2pm?

1 mark

Look at the graph.

For how many hours is the temperature **above 25°C**?

20b

Here is the calendar for the August when Luke was on holiday.

August								
Monday	July 29	5	12	19	26			
Tuesday	July 30	6	13	20	27			
Wednesday	July 31	7	14	21	28			
Thursday	1	8	15	22	29			
Friday	2	9	16	23	30			
Saturday	3	10	17	24	31			
Sunday	4	11	18	25	Sept 1			

Luke came back from holiday on August 4th.

He went on holiday two weeks before that date.

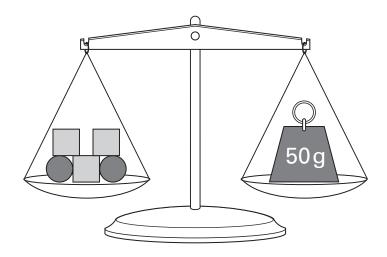

On what date did Luke go on holiday?

July

1 mark

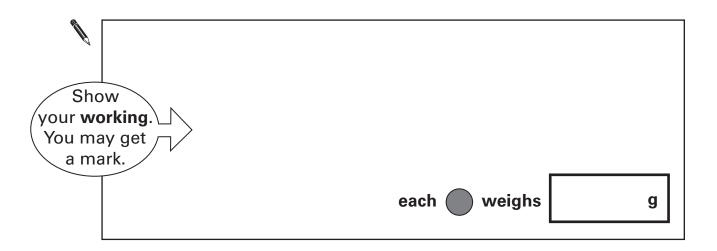

23

Emma uses 5 shapes to balance a 50g weight on a scale.

Each weighs 12g.

How much does each weigh?

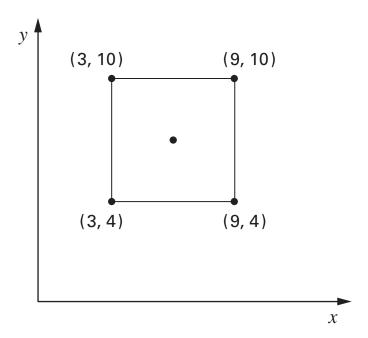

23

23ii

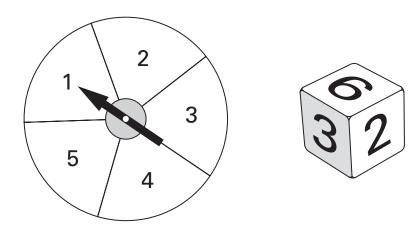

2 marks

Here is a square drawn on a coordinate grid.

What are the coordinates of the point at the centre of the square?

A spinner has the numbers 1 to 5 on it.

A dice has the numbers 1 to 6 on it.

The dice is rolled and the pointer is spun.

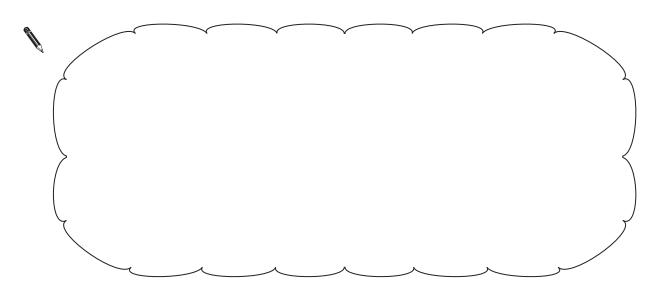

Emma says,

'You are more likely to get an odd number on the spinner than on the dice'.

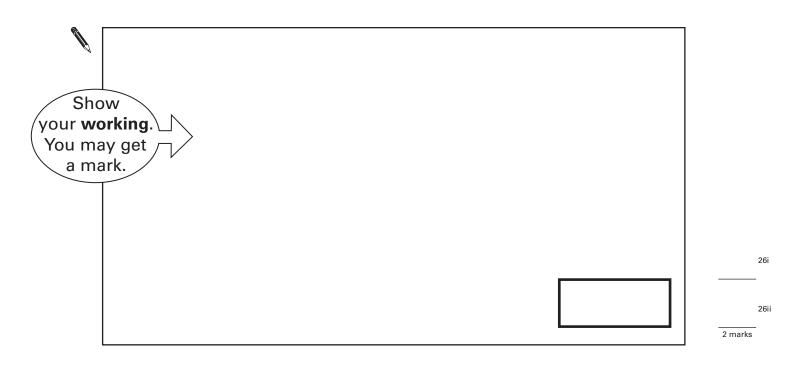

Is she correct? Circle **Yes** or **No**.

Explain how you know.

26 Calculate **56 × 24**

The numbers in this sequence increase by equal amounts each time.

Write in the missing numbers.

 $2\frac{1}{2} \qquad 13\frac{1}{2} \qquad \boxed{ }$

 $\frac{1}{2}$ $\boxed{}$ $24\frac{1}{2}$

27i ______ 27ii _____ 27marks

Here is a shaded shape on a square grid.

Reshma **translates** the shape from point A to point B.

Draw the new position of the shape after the translation.
